## **SAY HELLO TO ALEXA**

*The Computer Clinic by Steve Rollison*

If you want to get your favorite technology nut something new and cool for Christmas this year, consider the Amazon Echo. You'll need to get your order in soon if you want one for this Christmas.

The Echo is a black cylinder, about 3” in diameter by 9” tall. It just sits there, hibernating, until you wake it up by addressing it by its wake word, “Alexa.” You can also use “Amazon” if you prefer, and the company has promised to expand the list of “wake words” soon.

You follow the wake word with a question or a request to do something for you. Here are some examples of interactions Susan and I have had with the Echo since receiving it a few days ago.

Alexa, is it hot outside yet?

Right now in Nokomis it's 91 degrees with clear skies and sun. Tonight's forecast has some clouds with a chance of thunder showers and a low of 74 degrees.

Alexa, how many cups is 10 tablespoons?

10 tablespoons is zero point six three cups.

Alexa, what's the phone number for Hungry Howie's Pizza?

Sorry, I didn't understand the question.

Alexa, play some Blue Swede.

I couldn't find any songs by Blue Swede in your library. To hear custom stations...

Alexa, play some Emmylou Harris.

Shuffling music for Emmylou Harris... [begins playing Two More Bottles of Wine. The sound is incredibly rich for such a small device.]

Alexa, set an alarm for 5:30.

Is that for 5:30 in the morning or in the afternoon?

The afternoon.

Alarm set for 5:30 this afternoon.

Alexa, add eggs to my shopping list.

I put eggs on your shopping list. [When I am at the store and open up the Echo app on my smartphone, there's a checkbox on my grocery list next to the new entry for “eggs.”]

With the purchase of special boxes you plug into your wall outlets, the Echo can also turn on and turn off devices such as lights, fans and space heaters. Echo is currently programmed to respond to requests for music, traffic reports, sports scores and schedules, news, weather. It is also programmed to access the Internet to get information from Wikipedia, definitions, and answers to simple questions. And, of course, it provides voice activated alarms, timers, shopping lists and to-do lists. That's not everything, though, because Echo updates automatically with new services and features.

How to Get an Echo

The Echo is not an inexpensive toy. It sells for \$199 – \$149 if you have an Amazon Prime membership. Even at that price, the Echo is so
