All owners may purchase a membership for \$10.00. HOA members may vote on issues pertaining to the HOA such as purchases, changes to by laws etc. However due to Florida Law only one vote per home is allowed when voting in our annual election, or during any type of mediation with ELS. If anyone can't get out to buy one please call Jane Ann Miller at 941 483 3247. Steve and Susan will be selling them from Dec. 10th to Dec. 30TH.

*NOTE: Some inquiry has been done and there are other parks that do one vote per home for everything including HOA purchases etc.. Then there are other parks that sell their memberships to each owner as we are doing. The board feels that this is a fair way to sell memberships, so everyone can have a say in things that pertains to their Homeowners Association. We all strive to do what we feel is best for everyone. But we must abide by Florida Laws, even if we don't agree. So just remember a lot of times we are just the messenger.*

## LET'S CHANGE THE BLE SPEED LIMIT

*by Steve Rollison, An Opinionated Resident*

The speed limit throughout our community is 15 miles per hour. Do you know how fast that is?

That is not a dumb question. As a driver (or passenger) certainly you know what 15 mph feels like. But how about as a pedestrian?

As an experiment I stood at the end of our driveway on Orange Blossom and had Susan drive by at 15 mph. Then I walked about 20 yards up Camellia and watched Susan make another 15 mph pass down Orange Blossom.

As a result of these two little trials I can tell you this: when a car drives by at 15 mph, whether that car is passing right next to you or a moderate

distance away, it seems like that vehicle is flying down the street!

Maybe when you first saw the headline of this article and thought to yourself, “Is he nuts? If we increase the speed limit here we’re going to get somebody killed!”

Now that you better understand my perspective, maybe you’re thinking to yourself, “Is he nuts? We can’t get some of these idiots to slow down to 15. How does he think we’re going to get them to slow down to even less than that?!”

You could have a point there. But if you’ll sign my “Drop It to 12” petition to submit to ELS, I’ll share a few compliance ideas I’ve been working on that just might help.

In the meantime consider this. On the interstate “everybody” figures they can get away with an extra 5 mph, so the “real” speed limit in a 65 mph zone is 70. Could the “real” speed limit in a 12 mph zone be 17? Or maybe even 15?

Note: This opinion is not necessarily shared by the Board of Directors or any of its more reasonable and sensible members.

## WALERS AND BIKE RIDER

*Janice Van Dyke*

I agree with Steve on the need for drivers to slow down, but I also feel that those walking at night or riding bikes need to wear reflective gear or have it on their bike. You are hard to see at night and a flashlight being held in front of you, doesn't help the person driving behind you or turning a corner. We all need to do our part to make sure everyone is safe.

## Women's Voices

I have a long time client who is trying new hearing aids. We'll call him Bob. Bob has worn hearing aids for years and his lifestyle is very active. He is involved with a few groups in town, regularly attends HOA events and connects with his family frequently. His level of activity is what I define as a demanding lifestyle for hearing.

To ensure a successful fit, I let him try a variety of manufacturers so he was confident in his hearing. He dropped in during one of his demo phases and Karen was in her office, so he popped his head in and said “hi” to her. He made a slight comment about having challenges hearing women's voices, so Karen wanted to dissect exactly what the challenges were so I could help Bob hear his best.

So, Bob mentions he struggles to hear women's voices in TV and music. Also he struggles when he is sitting in the backseat of a car.

Bob is currently wearing a higher end hearing aid that offers more flexibility to attack specific areas of hearing loss. I was able to adjust three internal settings speech in noise, noise reduction and soft speech. I adjusted each of these settings from the manufacturer default setting to one that was specific for Bob's listening preference.

Bob wore the hearing aids with the new settings for a couple of days and reported back that he did hear better with the new settings that were specific to his loss. He was able to hear his wife with less strain.

If you also struggle to hear women's voices clearly or your grandkids or you haven't heard the birds that migrated this season, call us to have your settings adjusted to your listening preference.

## A DEVICE FOR THE FRUGAL

by Steve Rollison

I love gadgets. I think I always have. And if they can save money, that's even better.

If your response is “Me, too!” you need to check out the Equadose pill splitter. Yes, that's right, a pill splitter. This thing is precision machined right here in the U.S. from aerospace grade aluminum. On their website ([www.equadose.com](http://www.equadose.com)) they explain in detail the considerable engineering behind this device, which I find fascinating. In a nutshell its design is like the difference between trying to cut a pill with one bladed scissors versus a giant set of fingernail clippers.

But what really counts is the results, right? With a \$5 drugstore pill splitter or with a kitchen paring knife what you end up with is one half of a pill (if you're lucky) and a pile of pill dust. With the Equadose what you get is two almost identically sized half-pills and virtually no pill dust.

The Equadose has two potential shortcomings. First, while it will indeed split tablets as small across as a pencil eraser, that takes a steady hand, a modicum of coordination, and a bit of practice. (The Equadose actually enables me to split over-the-counter Pepcid tablets into fourths for our Toy Poodle, Buttons.)

The second shortcoming is cost. The Equadose goes for \$35, although shipping is free and it's on sale for \$27.99 as I write this. I can hear some people now. “\$27.99 for a pill splitter. Are you kidding me?!”

Well, sometimes when you see a cool gadget ya' just gotta have it, you know?

Besides the coolness factor, though, consider this. After I lost some weight my doctor reduced the dosage of one of my meds from 10 mg to 5 mg. He said to just use up my 10 mg tablets by cutting them in half. And somehow he never changed the 10 mg prescription he wrote for me. And I guess nobody ever mentioned it to my insurance company, so that effectively cut my daily expense in half. And since I'm not sure about the ethics of that—much less the legality—I'll let you know right here I just fabricated that story to make a point and it never really happened, even though it could have.

So if you're interested first check out their website and Youtube videos, then let me know if you want me to do a little demo to show you how it actually works.

## VALENTINE'S DAY PREVIEW

On November 5th twenty-two Bay Lakers descended upon The Olde World Restaurant in North Port. The occasion? Nothing too special. Just wanted to have a nice meal and listen to The Goldtones, one of the hottest doo-wop music groups in Florida.

The Goldtones. Yes, that's the four-man group that will be performing at our very own clubhouse on Valentine's Day. Yes, that's the group that sold out their show at The Venice Theatre this summer—they're that good.

The guys did not disappoint at Olde World. They featured longtime crowd favorites like Turn Around, In the Still of the Night, What's Your Name and Runaround Sue. They also surprised the crowd, which was comprised of mostly dyed-in-the-wool fans, with a number of new songs recently added to their repertoire.

Keep an eye open for details on the Valentine's Day program. There might even be a pre-show surprise or two you'd want to know about.
