## THE EVOLUTION OF THE CAMERA – PART I

Photography has been important not only for capturing your most precious family memories throughout the years, but for capturing historical records. In fact, **the history of cameras can be traced back all the way to the 1600s and earlier.** Capture archival experts have put together a complete evolution of the camera so you can learn how the technology progressed from pre-film cameras to the digital camera or smartphone you use to snap pictures of family events.

- A Quick List of the Evolution of the Camera Timeline
- The Camera Obscura: The First Camera - 400 BC to Early 1800s
- The Daguerreotype Camera: Early Photography – Early 1800s to Late 1800s
- Roll Film: Multiple Exposures – 1888 to 1934
- 35mm Film – 1934 – Early 2000s
- Polaroid – 1948 – 1990s
- Digital camera – 1969 to Current
- Smartphones – 1999 to Current

The camera obscura is commonly thought of as the first camera and predecessor to film cameras. Camera obscura is Latin for “dark room” and is a natural phenomenon that projects an image through a small hole, or lens. Since this effect can be observed in natural circumstances, it has been traced back as far as circa 400 BC.

If you are wondering, “when was the first camera invented,” many people point to Ibn al-Haytham who invented **the first pinhole camera box around 900 to 1000 AD.** However, the first instance of people using a man-made object to produce a portable camera obscura effect has been traced back to around 1550.

During this time, the camera obscura was used as a *drawing aid and optics were studied by famous thinkers including Leonardo da Vinci and Rene Descartes.* In fact, the term photography was coined to mean “drawing with light!”

Then in **1685, Johann Zahn invented**

**the first ever portable camera** made for photography. However, it took over 100 years before a pinhole camera obscura effect produced the first permanent photograph.

In **1826, Joseph Nicephore Niepce** used a sliding wooden box camera to manipulate the camera obscura phenomenon to expose pewter coated with bitumen for 8 hours. Then, in 1834, Henry Fox Talbot discovered how to fix images to paper using a combination of optics and chemistry. This made it possible to make multiple print negatives for the first time.

Camera Obscura’s use of light to expose contrasting images, control of light using a pinpoint lens, and the study of optics, in general, would all influence later photographic technologies that are more familiar including daguerreotypes and celluloid film.

Roll Film: Multiple Exposures

In 1888 in Rochester, New York, **George Eastman** created the first camera that used a single roll of celluloid emulsion film, called The Kodak. This original Kodak camera would capture negatives in fractions of a second, significantly faster than older inventions in the history of the camera. *The film would be sent to Eastman Kodak for development and was marketed as a point-and-shoot option.*

The original Kodak camera was so popular that the company became **one of the largest American companies**, which helped them continue to innovate new camera options including the historical Kodak Brownie in 1900.

The **Brownie model was inexpensive** and was the first time in the history of photography that an option was available to most middle-class families. That meant more people than ever before could capture weddings, parties, and family reunions.

Some of the innovations during this period would propel the evolution of the camera forward including multiple exposures on the same roll of film, a handheld point-and-shoot camera design, and the easy done-for-you photographic process.

35mm Film: Portability and Versatility The next milestone for photographic film came in **1934 when Kodak introduced 135 film**. This film was 35mm wide and made it possible to use the same size and type of film in cameras of any brand.

Plus, the camera operator would only have to place the film canister into the camera, wind it, and then it would automatically adjust as each photo was taken. Then, when the roll was finished, *the photographer could open it without risking overexposure to the light-sensitive film*.

While 35mm film was first invented by Kodak, the **Leitz Leica camera brand led by Oskar Barnack** would introduce many features that come standard on cameras today. **The Leica One was created in 1930** and offered the ability to change out the lens. Later Leica models would introduce the modern viewfinder, range finder, and 1/1000th of a second shutter speed.

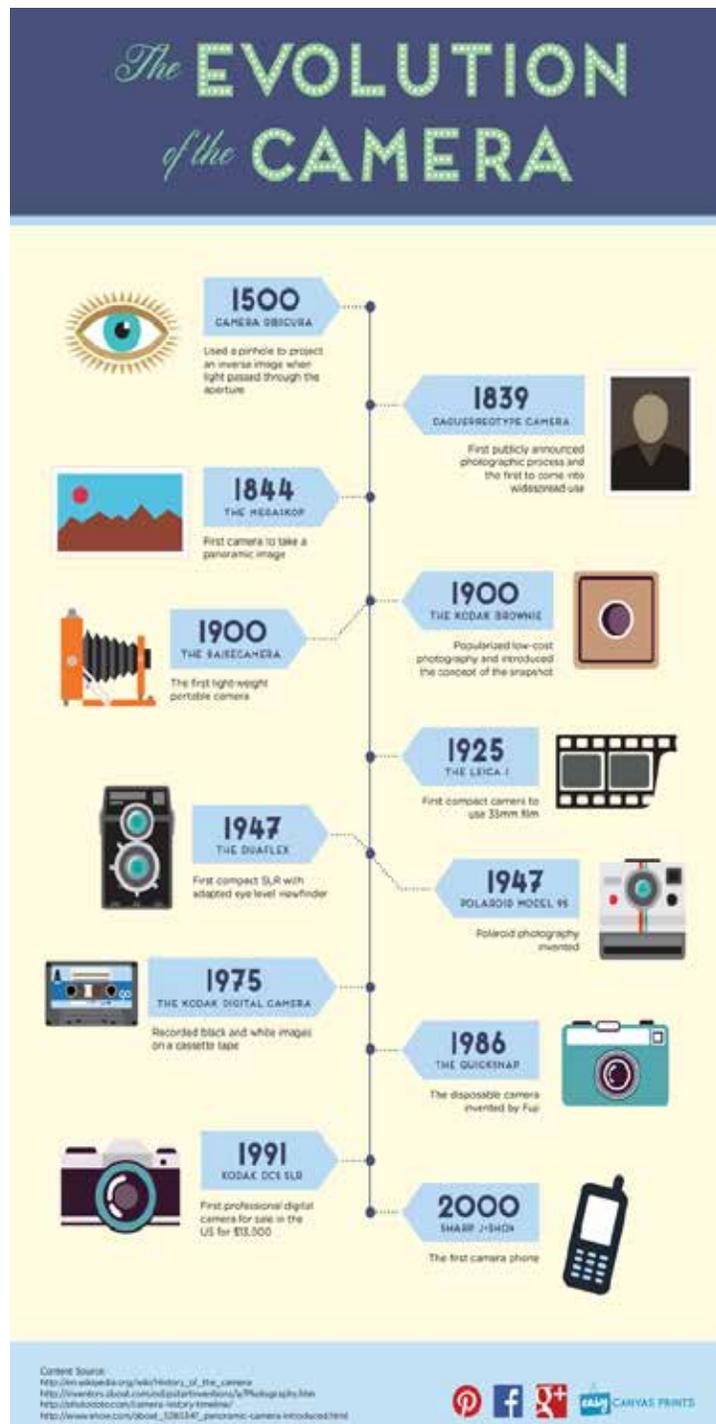

In the 1950s came the first Fujifilm twin-lens reflex camera (TLR) as well as the first single-lens reflex (SLR) camera with instant return mirrors including the Nikon F 35mm SLR complete with an entire array of *lenses, motor drives, straps, and other accessories*. Not long after, **the inventor of the SLR camera Thomas Sutton** would create the first color photograph in 1961.

The portable designs and ease-of-use for these camera inventions made photojournalism much more widespread. These inventions led to the development of the photo-heavy **Life magazine in 1936** and would remain the standard for almost 80 years.

If you still have vintage 35mm negatives or slides tucked away, preserve those timeless memories by digitizing them. ## YOUR MOST VALUABLE ACCOUNT – EVENT ALERTS

What exactly are the Event Alerts, you ask?

They are short e-mail “blasts” sent out whenever there are news items, announcements, events or activities you’d want to know about. The Bay Laker Newsletter is great, but like any printed information, it’s pretty much out of date by the time you pick it up.

Alerts are the best way to stay on top of things at Bay Lake.

If you’re not already a subscriber, becoming one couldn’t be any easier. Just send Steve a request at: [EventAlerts@SteveRollison.com](mailto:EventAlerts@SteveRollison.com)

A brief “Please subscribe me,” along with your name, is all you need to send.

New residents are encouraged to subscribe so as to keep up with any last minute changes or events.

## HOA MEMBERSHIPS

HOA memberships are on sale for 2026. All homeowners may purchase a membership for \$10.00 for the entire year. This is a fiscal thing, January – December.

*Please note*, when voting for the election of directors **only one member of the HOA per household** are allowed to vote, per #723 of the Florida Statue. Annual renters and occupants may purchase an Associate membership for \$10.00 a year as well. All members may vote on HOA issues and expenditures and attend HOA meetings. HOA memberships are important to receive discounts or to join special events, like the Welcome Back Breakfast, Ice Cream Social, Valentine’s Day dinner and dance, Halloween Party and more.

Memberships will be sold at Saturday morning coffee and at association meetings, or by calling John Kreta at 513-886-4201.

## I Love My Hearing Aids

**Blair Post, HAS, BC-HIS, ACA**  
 Board Certified Hearing Instrument Sciences  
 American Conference of Audioprosthology

Being a small business owner, it's important for us to know how new clients find us. So, whenever someone new comes in, we always ask, "How did you find us?"

During COVID-19, most people said they found us "online" since we couldn't meet in person. Now that we can be together again, many new clients are saying things like, "My neighbor told me I should see you because I wasn't hearing well."

One of my favorite stories came from a new client, Betty. When I asked her how she found us, she said, "I overheard my friend, Shirley, saying she loves her hearing aids." Betty said this because Shirley talked about her hearing aids in a positive way, which made Betty want to try them, too.

Betty explained that she often heard people complain about their hearing aids, especially when they had trouble understanding conversations in groups. But Shirley was at a line-dancing class and, while talking to someone else, said, "I love my hearing aids." This made Betty curious.

So, Betty walked over to Shirley and asked, "Who helps you with your hearing aids?"

When I heard this story, I felt so happy to know that Shirley's hearing aids worked well for her. Our goal is to help people hear clearly in groups. Knowing we helped Shirley hear well enough to enjoy a dance class and even tell others she loves her hearing aids is a huge success for us.

If you have trouble hearing conversations clearly in crowds, give us a call to try a free hearing aid demo. You might even find ones that you love.

## BLAST FROM THE PAST

Now, knowing this you can see why we are going to ask you to accept our apologies . . . we have not turned off the highway when we should have . . . we didn't make that little drive that would have taken us to a bright new mobile home community in the Venice-Nokomis area of West Coast Florida . . . and as a result, this story on new Bay Lake Estates is a little late. . . the community has been open since March, 1971 and already one third of the lots are rented!

But fortunately, there are 226 lots in the total development of Bay Lake Estates . . . so if you act now you can still become part of this pretty mobile home community and the friendly, informal, relaxed way of life that is being lived there . . . and you'll still have time to find out how pleasant management can be when you meet Barney and Jo Ann Walls, the owner/managers . . . so come on along with me on the same tour of the area and Bay Lake Estates we took . . . when we're done, you'll see why we are glad there was still time when we finally woke up and visited . . . no Pulitzer Prize for us this year!

Bay Lake Estates is in the easy-going little city of Nokomis, Florida

**Handsome Mobile Homes are offered in a wide variety of widths and floor plans.**

. . . on the Gulf side of the Sunshine State, between Sarasota and Venice. Actually, Venice and Nokomis are one metropolitan area, so when you live at Bay Lake Estates you have all the advantages of the

suburbs with none of the disadvantages of being far away from necessities and conveniences.

We'll drive north or south on U.S. 41 . . . The Tamiami Trail . . . and coming south from Sarasota or north from Venice, we will soon be in Nokomis. We'll look for Colonia Lake . . . that's spelled without a final "L" . . . Colonia . . . and we'll turn east on Colonia Lane for just about three minutes and come directly to the entranceway to Bay Lake . . . in a residential area with all the peace and quiet you could desire. When we arrive, we will be only 10 minutes from the heart of downtown Venice and about three minutes from a brand new shopping center that will soon be open . . . you'll be able to walk to it!

Before we go in and meet Barney and Jo Ann Walls, we'll "scout around" a little and see where everything is . . . we'll see that shopping, medical facilities, outdoor activities are just around the corner, so to speak . . . and we'll see that we have an easy choice of whether to shop in Venice or Sarasota . . . with the pleasure of the many tourist

**Barney and Jo Ann Walls are developers of Bay Lake Estates. They live right in the community.**

and sightseeing attractions of both areas at our disposal all year round!

When you live at Bay Lake Estates you have police and fire protection, a modern, up-to-date hospital only minutes away, doctors of all practices of medicine in the area, churches of all faiths within easy driving distance, beautiful beaches, golf courses, tennis courts, the greatest fishing in the world, boating, shelling, picnicing in close by Oscar Sherer State Park . . . literally thousands of folks just like yourselves are finding that the Venice-Nokomis area is perfect for retirees . . . and you can take their word for the fact that it is a wonderful place to live!

Well, we better drive on back now to Bay Lake Estates . . . there are so many things to see and so many nice people to meet!

The very first thing we notice as we enter Bay Lake Estates is . . . the entranceway . . . a very handsome one and one that will give you a feeling of pride every time you enter . . . and every time friends or relatives come to visit.

As we drive in to Bay Lake Estates, we see how the entrance boulevard is divided by a beautifully planted center "island" . . . and we see the clear waters of Lake Patricia welcoming us . . . this little private lake is stocked with fingerlings who will be providing plenty of fishing in the months to come. Lake

Patricia is landscaped all around, kept clean by management and it is just a pleasure to see it as you enter the community time after time . . . by the way, cool breezes waft across Lake Patricia during the summer months and this makes it even more delightful!

Speaking of water, Bay Lake Estates overlooks the waters of both Roberts Bay and Curry Creek . . . you can walk over and fish or take your little boat over and sail out into the Gulf or surrounding waterways . . . that's nice!

Bay Lake Boulevard, our entrance road, leads us to Carissa Boulevard and we follow Carissa past Lake Patricia right to the very handsome Club House and Recreation Center where Barney and Jo Ann Walls are waiting to meet us.

As we drive up to the Club House, in Section One of Bay Lake Estates, we look around and see that on all sides are handsomely proportioned lots, with pretty pastel colored mobile homes set back from the road, with palms and other tropical plantings everywhere and we see the wide variety of mobile homes on display by the area's leading mobile home dealers.

Before we get to the Club House, we will learn that Bay Lake

Estates is a rental mobile home community . . . you purchase your mobile home and rent the lot. There are many advantages to renting your lot as opposed to purchasing . . . among them are the facts of not having to make a large capital investment in your lot . . . allowing you to pay a larger percentage of cash for your mobile home . . . you can keep your lot money in the bank drawing interest and it will pay a substantial portion of your modest annual rental.

Additionally, you know that in a rental community like Bay Lake Estates, management provides all services . . . you do not have to pay for them separately as in a mobile home subdivision . . . you have no land taxes to pay . . . and the best of all, you really have no responsibilities except to write out that little check once a year and forget it!

The carefully selected mobile home dealers who have their models on display at Bay Lake Estates offer excellent financing and service . . . and a wide selection of homes to fit your individual need.

You can choose from 12 wides, Expandos, 24 wides . . . in a variety of floor plans . . . from one bedroom, one bath to two bedrooms, two baths . . . and all homes come furnished, carpeted, draped, with deluxe kitchen appliances, central heat, even central air conditioning if you desire.

And, every mobile home at Bay Lake Estates comes complete with a very attractive screened porch, (it can be railed if you wish) . . . full carport and driveway, utility room, planter, decorative foundation . . . and the lovely landscaping that is the rule in this modern Florida mobile home community!

Once you have selected your mobile home, you will then pick out the ideal lot on which to place it . . . and here you again have a wide choice . . . standard lots, corner lots, waterside lots . . . and when you find out how modest the rentals are you'll see that this is one of the finest housing values in Florida!

Clubhouse facilities are outstanding at Bay Lake Estates.  
ready for you to enjoy all year 'round.

## WHERE TO DINE – WHAT TO ORDER

This photo was taken from a Venice magazine while I was waiting for an oil change. Tons of interesting Venice info inside the mag.

### VENICE! “A FOODIE HAVEN KIND OF TOWN!”

Food, glorious food—and drinks too! That’s the theme of this month’s “Venice City Lifestyle,” and I’m happy to say what you probably already know: Venice is a foodie heaven kind of town. From fresh seafood to craft cocktails to comfort dishes with a twist, our community has an appetite for flavor—and we’ve put together a full menu of stories to match.

We kick things off with “Chefs on Deck,” where we gathered some of Venice’s culinary luminaries aboard the yacht *Derzel’s Dream* at the Venice Yacht Club. On a sun-drenched morning, they shared their passion for food, their inspirations, and a few good laughs. It was a hot day, but the conversation was even hotter.

On the drinks side, “Mix, Sip, Repeat” invites you to refresh your glass and your home bar. We’ve highlighted seasonal recipe books brimming with cocktails, mocktails, and spirited concoctions—perfect for autumn gatherings or simply unwinding at the end of the day.

Of course, no food feature would be complete without a stop at one of Venice’s favorite burger joints. In “Brew Burgers and Beyond,” we spotlight Michael Bacon, a man who knows what locals crave. From his classic burgers and bagels to community-minded innovation, Michael has turned BrewBurgers into a local institution with heart.

Because fall is also the season of fresh flavors, we asked Marci Weidemiller of Venice Olive Oil to share a recipe from her own collection. “Harvest Pumpkin Salad Magic” is bright, colorful, and delicious, capturing the essence of October on a plate.

And for a sweet encore that’s not on the table but on the stage, we close with “Gulf Coast Gypsy: Nightbird’s Rise.” This Fleetwood Mac tribute band brings Stevie Nicks-inspired magic to the Venice Performing Arts Center, offering a night of music and memories for fans old and new.

I hope you enjoy this flavorful issue as much as we enjoyed creating it. Wishing you a delicious season ahead. May it be filled with good food, great company, and all the joys of October.

Warmly,

CHARMAINE TINCHER, PUBLISHER
